GROUP DAYCARE SYSTEMS

GDS Systems goal is to provide simple Database Management Software at an affordable price.

Target Business:

Children Daycare centers

Advantages:

- Gives daycare center a simple way to keep track of families
- Registration can be done online making it COVID friendly
- Children can be added and removed from database in just seconds
- Easy to user graphical interface

Limitations:
- Limited user privileges to ensure data integrity (ADMIN/STAFF ONLY)
- Specific requirements for password management and data retrieval

Implemented Functions:

- Search, Insert, Edit, Remove, Clear current tables
- Exception handling when empty field, if entry isn't string/int when needed
- Well designed GUI with OnClick buttons, connected in the same local package
